Forecast for Tuesday 12 Jul 2022

Weather: Dry with clear periods through the early hours but becoming increasingly cloudy by dawn. A dry start to the morning with spells of hazy sunshine but cloud thickening at times with the odd shower possible around the middle of the day. Breezy over the summits but winds easing later with a fine and bright evening expected in most of the park but the odd patch of lower cloud forming by dusk.

Chance of cloud-free hill tops above 800m: Generally 90% but becoming 60% on coastal hills in the west during the evening.

Low Cloud and visibility: Generally good visibilities but distant hills will appear quite hazy with cloud well above summits through the day. Some isolated patches of low cloud with bases as low as 200-300m possible for western hills by dusk.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Another fine day for the most part, albeit cloudier than on Monday. Despite the cloud, UV levels will still be high during the afternoon and sun protection is advised.

Forecast for Wednesday 13 Jul 2022

Weather: After a generally dry night with clear periods, a warm, bright and mostly sunny day is in store. Cloud possibly increasing through the evening.

Maximum wind: North-westerly 15-25 mph, easing to 10-15 mph.

Chance of cloud-free hill tops above 800m: 90%

Low Cloud and visibility: A few ragged patches of cloud above 700m first thing, this soon dispersing to leave all mountains cloud free. Outside of cloud, very good visibilities with better air clarity than on Tuesday.

Temperature: **Valleys:** Plus 11 Celsius rising to plus 17 Celsius.
At 800m: Plus 8 Celsius rising to plus 13 Celsius.
Freezing level: Well above the summits.
